## ESSENTIAL READING FOR LEGAL PRACTITIONERS AND STUDENTS...

### Evidence, Advocacy and the Litigation Process

*By Jeffrey Pinsler*

This book is about the operation of the litigation process, a field which is constituted by the interrelated subjects of evidence, procedure, trial preparation, advocacy, methodology and ethics. Its objective is not only to examine the operation of the rules of law and procedure, but also to consider the nature of these component subjects of the litigation process so that their interrelationship, so vital to an understanding of the subject as a whole, may be fully appreciated. The collation of the subjects of evidence, pre-trial and trial procedure, preparation for trial, trial methodology and skills, and ethics in a single volume will benefit those who practice in the courts, students and other persons who have a role or are interested in the litigation process.

### The Law of Guarantees in Singapore and Malaysia

*By Low Kee Yang*

This book is an in-depth study of the law of guarantees. It presents the law in a clear, concise and cohesive fashion. Where important controversial or novel points in issues arise, they are directly confronted and dealt with at length.

The Malaysian position is also considered in detail, in particular, the extent to which the Contracts Act (esp. the 22 sections on suretyship) alters or modifies the common law position. The book is very much concerned with the practical realities of the law of guarantees. In fact, the most salient feature in suretyship law is the fact that the standard form guarantee has generally been allowed to prevail. Recent developments are also examined closely.
